Results: Eight New Cases of COVID-19

Eight (8) new cases of COVID-19 were identified out of **553** tests performed on Tuesday, February 2. **Six (6)** cases reported recent travel history and were identified in quarantine.

To date, there have been a total of **7,618** officially reported cases of COVID-19 with **129** deaths, **82** cases in active isolation and **7,407** not in active isolation.

TODAY'S CAR SCORE¹

0.6

¹The COVID Area Risk (CAR) Score accounts for the incidence of new cases, how well current testing identifies these cases, and the rate of spread. The ideal long-term goal is to sustain a CAR Score of 2.5 or less, which has been shown to correlate with very low to zero COVID-related hospitalizations and deaths.

Pre-screening Eligibility for COVID-19 Vaccinations

To take the COVID-19 vaccine, you must meet the following pre-screening eligibility criteria*:

- Must not be currently infected with COVID-19 or previously exposed within the last 14 days
- Must not have received any other vaccine, such as the flu shot, in the last 14 days

*Please note: If this is your first time receiving the COVID-19 vaccine, please make sure you have never taken other COVID-19 vaccine products. Please visit dphss.guam.gov to view the pre-screening eligibility.

V-Safe Vaccine Symptom Monitoring

Individuals who have received the COVID-19 vaccine are encouraged to register for the tool called v-safe, offered by the U.S. Centers for Disease Control and Prevention (CDC). V-safe is a smartphone-based tool that uses text messaging and web surveys to provide personalized health check-ins after you receive a COVID-19 vaccination. Through v-safe, you can quickly tell CDC if you have any side effects after getting the COVID-19 vaccine. Depending on your answers, someone from CDC may call to check on you. V-safe will remind you to get your second COVID-19 vaccine dose if you need one. Sign up for v-safe with your smartphone's browser at <https://vsafe.cdc.gov>.

Do Not Share Images of Your Vaccination Card on Social Media

Individuals who received their COVID-19 vaccine should refrain from sharing images of their vaccination cards on social media. Vaccination cards contain sensitive information (full name, birth date, and location), making you susceptible to identity theft. Keep your vaccination card safe at all times.

Food Commodities Distribution Through Village Mayors Continues
